Development Board

Commission de planification et  
de développement de la main  
d'oeuvre pour les comtés d'Elgin,  
de Middlesex et d'Oxford

**For Immediate Release  
November 23, 2010**

## **Students Connect with the Business Community**

The EMO Workforce Planning and Development Board is one of the sponsors for the London Chamber of Commerce Mega Business After 5 being hosted by The University of Western Ontario Student Success Centre and University Students' Council at The Wave on November 25.

November 22– 26 is Experiential Learning Week, which is a week-long celebration of employer/education partnership success for experiential learning opportunities for students. Here is a message from Hon. Leona Dombrowsky, Minister of Education... [Experiential Learning Week](#).

As part of this week, the students from the Construction Technology Department of A.B. Lucas Secondary School have built a Christmas Tree to be part of this business networking event. London Chamber members are being asked to bring a non-perishable food item for the Business Care Food Drive and the student built tree will be the focal point for the food donations that are brought that night.

Also as part of Experiential Learning Week, UWO students are being invited by the Student Success Centre to visit this premier networking event to meet London businesses.

**London Chamber Mega Business After 5  
The Wave at University of Western Ontario  
(University Community Centre)  
5:00 pm to 7:30 pm**

More event information at: <http://www.londonchamber.com/events/?id=406>

PS...Santa will be in attendance.
