

Congratulations on Becoming an Apprentice!

Photo by John Sing, Photographer, Fanshawe College

You'll need good math and communication skills for your work and your studies.

Are you prepared?

There's help available to build your skills so you can:

- Prepare for your in-school studies
- Succeed in your in-school program
- Pass your Certification of Qualification exam

Don't be afraid to ask for help!

**EMPLOYMENT
ONTARIO**

Your jobs and there. We'll help you find it.

This Employment Ontario Project is funded by the Government of Ontario

Service Sector

Are You Ready for School?

Check to see.

Try answering these questions...

1. A bread recipe calls for 3% yeast. What is the weight of the yeast required for 10 kg of flour?
A. 3 grams **B.** 30g **C.** 300g **D.** 3000g
2. Pick the word that means the same or about the same as the underlined word: effectively completed.
A. cheaply **B.** properly
C. expensively **D.** occasionally
3. To maintain a 29% food cost, what must the menu price be of an item costing \$1 to produce?
A. \$2.90 **B.** \$3.45 **C.** \$4.35 **D.** \$5.45
4. How many words are spelled incorrectly in the next sentence? Horticulture workers must know what kind of shovel to use to plant different varieties of flowers.

Did you know?
You need at least 70% to pass a trade exam.

There are **FREE** programs in your community to help build your math and communication skills so you can be successful.

Programs are:

- Available at night, during the day and online
- Flexible to suit your individual needs
